Fish River - Kleinemonde - Riet River - Port Alfred - Bathurst - Kenton-on-Sea - Bushmans - Boknes - Cannon Rocks - Alexandria

Ten Rivers & Endless Beaches

The Ndlambe area of the Sunshine Coast is home to 10 rivers offering endless water sporting opportunities. Navigable for 32km, the **Bushmans River**, near Kenton on Sea borders two major Big 5 Game Reserves and is popular with boating enthusiasts, as is the adjoining 16km **Kariega River**, exiting at the popular Kariega Blue Flag Beach.

The **Kowie River**, running through the of Port Alfred, and navigable for 22km leads all the way to the iconic Horseshoe Bend in Bathurst and is popular for river cruises, houseboats, and all water sports. The river flows into the iconic Royal Alfred Marina and the Small Boat Harbour and is home to the NSRI Station 11.

Kleinemonde East and West Rivers, are features of this picturesque village, and offer warm, shallow waters at the mouth, ideal for the young ones to paddle in.

The **Bakanas River**, at Boknes close to Boesmansriviermond and Kenton on sea, is a blind river, which rarely opens to the sea, and is very salty, playing a vital role in the life cycle of the Sand Prawn, which can be found in abundance in this estuary and blind river. The **Kasouga River** is set in a world heritage site, recognised for Oribi, and is situated in the village enclave of the same name.

Another blind river, the **Kap River** is popular amongst birders and canoeists, whilst the **Riet River** and **Rufanes Rivers**, east of Port Alfred are both small rivers of less than 4km length, however, the adjacent marshland plays an important ecological role for marsh birds. Finally, the **Great Fish River** is approximately 644km in length, with its source at Graaf-Reinet.
